County court was in session Monday and Tuesday. The collector filed his settlement, which was approved. A. L. Heaton was appointed road-overseer in district 5 in place of Wm. Dunn, who declined; N. S. Vickery was appointed in district 7 in place of R. S. Huff; George Crocker was appointed in district 15 in place of Otis Carl. Court adjourned until after the meeting of the Board of Equalization in April.

The suit appealed from the Iron county circuit court, seeking the establishment of a depot at Pilot Knob, was argued in the Supreme Court a few days ago. Dr. Martin writes us that a decision is expected in a few days and there is every reason to believe it will be in favor of the establishment of the depot.

L. B. Hardy, recently from Iowa, last week bought from Jos. Madlinger the fifty feet of ground on Main street just north of the old Begley home-stand. Mr. Hardy intended to build thereon at once, but has since abandoned that idea for the present, and has leased Cicero Collins' store room in the hotel, where, we understand, he will conduct a confectionery.

Prosecuting Attorney Damron last Thursday filed an information in the circuit court against Lemro Hill charging him with felonious assault, committed on Henry Trammel, February 15th. Hill is one of the proprietors of the saloon at Pilot Knob, where the assault alleged was made. Hill gave bond in the sum of \$500 for his appearance at the April term of circuit court with W. A. Black and Wm. R. Edgar as sureties.

W. D. Tucker, who lives in the Flatwoods, about six miles east of Ironton, was a caller at this office last Thursday morning, bringing with him several specimens of rock he had taken from a shaft that he is sinking on his farm. The rocks look good and Mr. Tucker says that experts have assured him that they contain both lead and zinc, and some copper. The shaft is now thirty feet deep. Mr. Tucker will go some deeper and then have an assay made. He is very hopeful of the outcome.

One horse in a team belonging to the Arcadia livery stable was killed by one of the pushers on the railroad crossing, at the rock cut, south of Arcadia, about nine o'clock Monday night. The team had been driven to Marble Creek. On the return trip they got away from the driver. When they arrived at the crossing they had nothing of the rig except the tongue with them. They got on the track just as the pusher came along. One of the horses was killed; the other miraculously escaped injury.

Attorney General Barker has employed Frank H. Farris, of the law firm of Farris & Watson in this city, to assist in the prosecution of the Beef Trust cases, which are pending before the Supreme Court of Missouri and are set for trial in April. Mr. Farris has been spending most of the time for the past several weeks in Jefferson City, collecting and reviewing the testimony. In selecting Mr. Farris, for this special work, it is a just recognition, not only of Mr. Farris' legal ability, but also a faithful party service.—Rolla Times.

Dr. J. A. Waterman, superintendent of State Hospital No. 4, tells us that he is in receipt of a notice that Dr. W. G. Patton, of Thayer, Mo., has been named as assistant physician at the hospital to succeed Dr. J. A. Tiller, who recently resigned and on last Friday returned to Bloomfield, Mo., his former home. Dr. Patton is expected to arrive here not later than by next Monday when the board meets. The information is that his appointment is a personal one by the Governor who seems to be making all of the appointments throughout the State personal ones.—Farmington News.

Dr. Patton was in Ironton last Friday on his way to Farmington to assume the duties of his new position. We congratulate our young friend and hope to see him "make good."

On July 1 next the collect-on-delivery feature will be added to the parcel post department of the postal service of the United States. An order putting this into effect has been signed by Postmaster General Hitchcock. Under the approved regulations a parcel post stamps may be sent anywhere in the country and the amount due from the purchaser collected and remitted by the Postoffice Department. The amount due from the addressee and the collection will be made, provided the amount is not in excess of \$100. The fee will be 10 cents, to be affixed by the sender in parcel post stamps. This will also insure the parcel to an amount not to exceed \$50.

J. C. Morris was operated on at St. Luke's Hospital, St. Louis, on Tuesday for inflammation of the gall bladder. The surgeons also removed the appendix as they found it to be affected. He had suffered a rather severe attack of appendicitis about ten years ago. Mrs. Morris and Walter Morris are with him. They report that he stood the operation fairly well and while he has been very sick since that his condition has not been alarming. The News joins the people of Farmington generally in hoping for Mr. Morris a speedy and complete recovery. He is a member of the firm of Morris Bros., and is one of Southeast Missouri's most efficient and progressive young merchants.—Farmington News.

The city is constructing a street from Main street to Knob street in north Ironton. The route that has always been traveled from Main street to the railroad station is not a street of thoroughfare at all—just a cut through private property. The owners of the lots that have been used all these years say they intend to fence their property so a thoroughfare will have to be made to the depot. It is proposed to ask the railroad company to donate a car of cinders toward the construction of the street. The dirt being used in the construction is taken from the cellar that is being dug for Mayor Rasche's new home. The street being built is a continuation of Polk street at Mayor Rasche's court on Main street, to Knob street. It will afford a good thoroughfare to the station. Something we long have needed.

Mrs. Woodside will have her Spring Millinery Opening, Friday, March 14, 7 to 10 o'clock P. M. Note the hours, please! after supper, from 7 to 10 o'clock. The hats and bonnets are unusually pretty and attractive this season, and Mrs. Woodside announces her intention and desire to make this the most elaborate and pleasing display in Millinery that she has shown to the ladies of the valley and vicinity in the sixteen years she has been in business in Ironton. In the display will be two creations by Mons. Ora One, the world famous Parisian designer and trimmer. They will be of much interest to the ladies. Mrs. Curtis has been here the past week and will assist at the opening. Remember the date, Friday, March 14th. And do not get confused as to the hours, 7 to 10 o'clock in the evening. Everybody cordially urged and invited to attend.

County Superintendent Burnham furnishes the following list of those in attendance on the teachers' examinations last Friday and Saturday: Azile and Camille Marr, Ironton; C. W. Phillips, Annapolis; Macy Amnden, Des Arc; G. V. Boring, Bellevue; J. B. Jackson, Edwin A. Reed, Des Arc; Perry Sutton, Vulcan; Rebecca Adams, Goodland; Velah Pippin, Edge Hill; G. W. Hanson, Ironton; Edith Miller, Des Arc; Effie Kamholtz, Graniteville; Fred Orrick, Middlebrook; Catherine Anderson, Ironton; Lena Kamholtz, Graniteville; Ida Dennis, Goodwater; Myrtle Orrick, Middlebrook; Cynthia Jones, Graniteville; Mona Lewis, Sabula; Nettie McCormick, Chloride; Della Keathley, Myra Peck, Allie Patton, Easter Tucker, Bessie Hotson, Ironton; Maybelle Meade, Graniteville; Susie Johnson, Middlebrook; Carl Pippin, Edge Hill; W. On last Tuesday evening, the commodious and hospitable home of Mr. W. A. Fletcher in Arcadia, was "wide open" to the Club and a number of its friends. Miss Florence, assisted by a number of Club members, welcomed the guests, and at once the pleasures of the evening began. Contents of various kinds, but all arranged with special care for the entertainment of the gentlemen, were carried out with much merriment. An unique feature of the evening was the arrangement of hats and ties to designate partners for luncheon. The hats, really beautiful creations of crepe paper, were worn by the ladies, while the gentleman drawing the corresponding colors in a tie was escorted to the lady wearing his colors. An ingenious play upon names of vallegians was arranged by Mrs. D. E. Fletcher and surely had the crowd guessing. Save for regrets at the absence of some members, the whole affair was one of unalloyed pleasure and the guests, one and all, expressed a hope that the Club would entertain again at no distant day. Thus passed a most pleasant evening and the memory lingers of a warm handclasp and cordial greeting from the hostess of the home, and the fair hostess of the Woman's Study Club.

Last Sunday morning, about four o'clock Sheriff Blue received a telephone message from Arcadia stating that H. M. Collins' store, near the depot had been broken into and robbed. Mr. Blue hurriedly donned his clothes and proceeded to the scene of robbery. There he learned that a tramp by the name of Ed. Vancil, who had been around the valley for several days, had gone to the sand house, near the Arcadia station and told three other tramps if they did not want to be "pinched" they had better vacate. He said that he was going north. The trio instead of running away, as advised, went to the depot and told what Vancil had said. An investigation revealed that the store had been robbed and the Sheriff was phoned. Sheriff Blue at once started in search of his man and in less than an hour located him beyond Pilot Knob. He offered no resistance, admitted his guilt to the sheriff and was placed in jail to await the April term of court. Vancil took from the store a lot of cheap rings and some cigars and tobacco, worth, in all, probably \$12. He gained an entrance by breaking one of the glasses in front of the store. Vancil is probably fifty years of age; he says his home is in St. Louis, but it is stated that he has "hobbed" hereabouts a number of times in recent years.

Associate Justice of the Iron County Court for the Southern District, James Lewis, of Des Arc, arrived in Ironton Sunday afternoon on train No. 4 to attend the adjourned term of County Court, which has been in session this week, having made the journey that day from Pangburn, White county, Arkansas, where he has five sons in the sawmill and mercantile business. The Judge says Pangburn is a live town and the boys are doing well, but that it is the greatest place for "credit" business he ever knew anything of. Absolutely, everything, or nearly everything, is charged. Cash is an almost unknown quantity in the daily transactions there. The Judge stayed there about a month. He said he needed a suit of clothes and his shoes were worn out. He deliberated over the matter at length. He felt sure that if he went into a store and offered cash for his purchases he would excite suspicion. What could he do? A happy thought struck him! He would establish a line of credit and do business like the Arkansas people did. In other words, "In Rome be a Roman." He did so; got his hat and clothes and came on his way rejoicing. Since his return home the Judge says that he has thought the matter over carefully and has concluded that

the Arkansas way is not so bad, after all, but he wonders what the Arkansas merchant thinks about it by this time.

Just received a large car of Wire Fencing, Barb Wire, Staples and Nails. This car was contracted for last fall, before there was any advance in price. We are selling at the former low price, which simply means better fence for less money than you can get elsewhere. LOPEZ STORE CO.

School Notes

Iron County schools are planning another track meeting to be held here in the spring. Boys, get your legs limbered up.

Base ball has begun to take a new lease on life again.

The pupils of the seventh and eighth grades held their literary program Monday morning; was to have been given Friday, but was prevented by teachers' examination. These pupils have a very active organization. They have bought a Library case which cost \$10, to replace the one that has grown too small. They have received \$3.00 worth of books this week. The money has been raised by the children under dual donations.

The primary room received some new books for supplementary reading this week. The first grade pupils will have read five or more books by the close of this year. The second grade six or more. Little folks enjoy reading suitable books as well as older.

The English classes have been studying poetry the past week and are trying their hand at the verse making. They hope to show you some of their efforts.

The Agriculture class have been making hot beds this week. They expect to be able to supply the home demand for slips for transplanting.

The high school received a letter from the University of Missouri this week announcing the complete approval of our work here. Last fall the state department made the inspection of our high school and reported the same to the University. The classification was made on this report from the state department.

The University does not always see fit to approve according to the state report, so this marks another step in advance for Ironton. It is hard to fully appreciate the full value of approval by all the state institutions of our pupils' work.

We had some weather last week. The thermometer went down to 6. The last few days have been like spring, and are beginning to sow oats.

We have a cross the war on here, and, consequently, some mighty poor ties are being accepted. Somebody will get hurt, financially. They should pull together, and take nothing but good ties.

Lots of sickness hereabouts, but no deaths so far.

Wm. Stevenson and wife made a business trip to Williamsville and out to his farm on Otter Creek last week.

D. F. Stevenson, our big mill man from Taskoe, was a visitor here last week. He has the best constructed

mill I ever saw. He has a slab conveyor, working on an endless chain, that takes his slabs and rubbish 500 feet, or more, from his mill, consequently there is no danger from fire. Half the mills that burn catch from the slab fire.

Rev. Jaycox, Methodist, filled his regular appointment here to-day.

Our Sunday School is prospering under the management of J. L. Strader and Prof. McKee. We had a new organist to-day (Sunday.) Miss Esther Myers, daughter of the late John Myers. She is 14 years of age and a wonderful performer; she has a fine touch and, if properly trained, will make a fine musician. She is a pupil of Prof. McKee and is well advanced.

I intended saying something about women suffrage. I believe they will vote in our next general election, notwithstanding Mr. Bowers, the representative from Wayne county, is fighting them.

Now I am going to say something about the graft that is going on in this country. Some time ago a hod carrier, or laboring man, died in St. Louis. He had saved \$1500 and deposited it in a bank. He died and the undertaker buried him, and when the administrator went around to pay the bill it was \$1122. He had charged \$600 for the casket and \$100 for the outside box; \$40 for the preacher and a bill for nineteen carriages at the funeral. The probate court refused to pay the bill. The casket was taken from the grave and another undertaker testified it was worth but \$75. The undertaker had made a charge of \$4 for shoes. An examination revealed that the corpse was in his sock feet; the minister got \$2, not \$40. There were but three carriages at the funeral, not 19. The undertaker is now under bond. No wonder the people want a change. ISAAC.

We have as good people here, or better, as in lots of towns on the Iron Mountain railroad. There has been some "throwing off" on this town ever since the Mullane rape case. But the good people deplore that affair greatly. The prosecuting attorney is doing his duty and all good citizens endorse his actions. I do not understand why the doctor's wife does not want to live in Annapolis.
